

# Your Tip: A Donation That Rebuilds Lives

## Gratuity Policy:

If you choose to recognize your move team with a gratuity, it will be a tax-deductible contribution to the TROSA program, supporting all of the residents at TROSA.

You will receive a letter acknowledging your donation for tax purposes.

For equity reasons, as well as programmatic reasons related to recovery, we treat tips to our moving and delivery teams as donations to benefit all residents in the program.

TROSA offers several ways for residents to practice recovery skills in real-life settings. As a team, residents participate in departments as varied as Moving, Office Administration, Kitchen, Medical, Admissions, Construction, and more.

Not all residents get opportunities to interact with the public or receive tips, but all residents are contributing in the ways they can; therefore, tips are donations that go towards helping all of our residents receive our full recovery services.

## What is TROSA?

TROSA is a licensed long-term, nonprofit residential treatment program for substance use disorder.

**TROSA empowers men and women—like the crew you met today—to become healthy, productive members of their communities and families.**

Program participants receive cost-free recovery services and learn valuable life skills in team-based vocational training. When you support TROSA, you are helping provide the following services at no cost to the men and women in our program:

- Vocational and Life Skills Training
- Education Opportunities
- Medical & Mental Health Services
- Housing, Clothing & Food

**Supporting TROSA means investing in rebuilding lives, reconnecting families, and strengthening communities. Thank you!**
